# Highlights

## Portable and easy solution

Light, powerful and easy-to-use solution for recording your meetings.

## All-in-one carry case

The all-in-one carrying case not only stores your recorder neatly, but also keeps meeting microphones well organised and well protected.

## 360-degree sound pickup

The revolutionary boundary layer microphone is, as opposed to other prevalent devices, non-directional. The design allows sound pick-up from a 360 degree radius, so that no important details are lost.

## Adjustable microphone

The signal-to-noise (S/N) ratio of the high-sensitivity microphone is far better than those of standard microphones. Recording sensitivity is increased (picks up more voice signal) without compromising sound quality.

## Rapidly transfer recordings

Thanks to the fast data transfer of a hi-speed 2.0 USB connection, transferring recordings to your PC is up to 40 times faster compared with the original USB standard.

## ClearVoice

Recording with good audio quality at lectures or presentations can be a challenge. Especially if you do not sit in the front row, the voice of the speaker may be too quiet to record in acceptable quality. The ClearVoice feature adjusts quiet passages dynamically, thus improving the intelligibility of quieter voices.

## High-quality stereo recording

Recordings can be made in stereo in the popular MP3 format or the high-quality PCM format. The PCM format offers outstanding audio CD-like recording quality and makes listening to your audio files a pleasure.

## USB powered recording

To record over longer periods, the Voice Tracer can be powered through USB. Simply connect your Voice Tracer to a USB port and record lectures or conversations without draining the battery.

## Built-in wire storage

The innovative meeting microphones offer built-in wire storage and length adaption for a clean and tidy conference table.

## Easy file organisation

The VoiceTracer digital recorder supports up to 99 recordings in each of four available folders to help organise your files in a fast and easy way.
